## 2025 Test Proctor Large Print Scripts for Paper-Based Testing

### Mathematics

**The Test Proctor Large Print Script must be used with the  
*Test Administration and Proctoring Manual.***

## Tasks for Test Proctors to Complete BEFORE Large Print Testing

Note:

- Students will not record their answers in standard print Test Booklets. Rather, students will circle their answers in the Large Print Test Booklets. For constructed response items, students will write their answers on the lines provided in their Large Print Test Booklets.
- Throughout the scripts, there are several instances which instruct Test Proctors to demonstrate an activity. Ensure that this is done where it is visible for each student (e.g., on the board or near the student).
- In mathematics, students will need to write their answers in boxes at the top of the Answer Grids, but they do not need to bubble in their answers.

Before students arrive for each unit, do the following:

- Ensure that the testing room is prepared.
- Verify you have the schedule of times for the test units to be tested.
- Make sure you have the correct test booklets for your group to be tested.
- As appropriate, draw a timing box on the board.
  - Write the name of the test unit you are administering on the Unit Name line in the timing box on the board.
  - Write the Unit Time on the correct line in the timing box on the board.
  - Do not fill in the Starting Time or Stopping Time lines until instructed to do so in the scripts.
  - If one or more students are testing with extended time accommodations, you will need to adjust the amount of time each student will have to complete each unit. Refer to each student's accommodations for information on extended time, and follow the guidelines outlined in **Appendix D** of the *Accessibility Features and Accommodations Manual*.
- For math units, ensure that you have sufficient calculators for students. Do not hand them out until the student reaches the calculator section of the test. Note that a student may have an accommodation which permits the use of a calculator during non-calculator sections.
- Make sure you have a list of the accommodations for the students testing, consult the plan established in **Appendix A** of the *Accessibility Features and Accommodations Manual*.
  - If the students in your group require an extended time accommodation, follow the guidelines outlined in **Appendix D** of the *Accessibility Features and Accommodations Manual*.
  - If the students in your unit need a word-to-word dictionary as an accommodation, have these available to students or allow students to bring their own.

Post a copy of the STOP and GO ON signs on the board to show students what the signs in the book look like. Signs may be downloaded from the Illinois Support Site at <https://ilmypearsonsupport.com>. If one or more students in your unit needs a word-to-word dictionary as an accommodation, have these available to students or allow students to bring their own.

## Reminders for Test Proctors DURING Large Print Testing

When announcing the amount of time students will have to complete each unit, be sure to adjust the amount of time available to all students who have approved, extended time accommodations.

During testing, you must focus your full attention on the students at all times to confirm that they are working independently. Ensure that all student desks are free of any prohibited materials, and that all prohibited aids in the classroom have been removed or covered.

If a student starts a test unit and leaves school without finishing (e.g., due to illness, family emergency), he or she may be allowed to complete that test on a different day. If you have concerns about a student completing a unit before the end of the school day, you should not allow the student to begin. If a student leaves during a unit, contact the School Test Coordinator.

If you have questions regarding policy, security breaches, or irregularities, consult your School Test Coordinator.

Read only the bold instructions within each **SAY** box to students. Text that is outside the **SAY** boxes includes directions for Test Proctors to follow and should not be read to students. Test Proctors are permitted to clarify **only** scripted administration instructions after reading the script word-for-word. No passages or test items may be clarified.

### Script for Administering Large Print Grade 3 Mathematics – All Units

The administration script under Section 4.10.1 will be used for all units of the Grade 3 Mathematics Test.

On the first read through, Test Proctors are required to adhere to the scripts provided in this manual for administering the Illinois Assessment of Readiness. Read word-for-word the bold instructions in each SAY box to students. You may not modify or paraphrase the wording in the SAY boxes. Some of the SAY boxes are outlined with a dashed line and should ONLY be read aloud if they are applicable to your students. Some directions may differ slightly by unit and are noted within the administration script.
