

QuISBE User Guide

Purpose:

QuISBE is an opportunity for 5th and 8th grade students to become familiar with science content prior to the spring summative assessment. There will be multiple practice tests for each grade. The test can be completed during one class period or over the course of a few days. Each test contains machine and hand-scored items. Teachers will use rubric to hand-score open-ended constructed response items. Student final scores will be tallied by QuISBE after open-ended items have been assigned a score.

If you have any questions regarding QuISBE, please schedule Office Hours with Pearson by visiting the Illinois Support Site, selecting the Resources dropdown, and choosing Program Delivery Team Office Hours.

Prerequisites

1. Pearson will setup Courses and Classes.
2. Understand School Test Coordinator and Teacher role next steps.

School Test Coordinator or Teacher Login

1. Open the Launchpad URL – <https://launchpad.pearson.com> via Google Chrome (Other browsers are not recommended).
2. Enter **Illinois Administration Platform** for your Agency (or District) and select **Continue to Sign In**.
 - a. Note: This step only needs to be completed one time to access the Illinois Administration Platform.

Select your Educational Agency or School District

Enter Agency or District name...

Continue to Sign In

If you need assistance with your account, please contact the administrator at your district or school.

[Admin Sign In](#)

3. On the next screen, enter your provided Username and Password and select **Sign In**.

Additional Links

Note: If you do not have a login for LaunchPad, ask your DTC or STC to create your account.

5. Select **My Classes** to schedule a test. Select **Schedule Test** to name the Administration.

6. Find the test you would like to assign to your student, select the radio button and then **Select Test**. (Note: Science Form B consists of three sections and includes a total of 51 items.)

Test Name	Content Area	Grade	Standards	Items	Date Created
☐ Grade 8 Science Form B 25-26	Science	08	53 Standards	51	October 8, 2025
☐ Grade 5 Science Form B 25-26	Science	05	20 Standards	51	October 8, 2025
☒ Grade 5 Science Form A 25-26	Science	05	52 Standards	30	August 7, 2025
☐ Grade 8 Science Form A 25-26	Science	08	42 Standards	30	August 7, 2025

7. Complete **Schedule and Assign** fields. The administration name will be unique to your class. If you have more than one class, each administration name should be exclusive to each class. Input Start and End Dates. You can also assign the students here.

Take a Test

Proctor a Test

Download Lockdown Browser

Students will be prompted to enter the Test Code, which is located on the Proctor Dashboard. The teacher will provide the Test Code for the student.

Students will then enter their last and first name as printed on the student print card to log into Quisbe and start a test.

12. Upon entering the platform, the student will see their test. They can choose to interact with the tutorial or exit the tutorial and begin answering questions.

1

Tutorial: Step 1 of 5

Item Tools

These tools will vary per item.

Next

Students are studying the nests of two types of birds. They observed 10 nests of each bird. Table 1 shows the number of nests with surviving baby birds.

Table 1. Nests with Surviving Baby Birds

Bird	Observation of Nests	Nests With Surviving Baby Birds
Robin		2 out of 10
Cardinal		8 out of 10

13. An example of what the student will see when taking the test is below:

2

A class is studying how birds thrive in habitats that meet their needs. Figure 1 shows a model of birds found in different habitats.

Figure 1. Birds and Habitats

Freshwater Habitat

Saltwater Habitat

Using the information, what will **most likely** happen if the freshwater habitat changes to **saltwater**?

☐ A Bird 1 will have more habitat.

☐ B Bird 2 will continue to thrive.

14. Once all questions have been answered, the students will enter the Assessment Review screen where they can return to bookmarked items in the test or **Submit**. ADAM will then log them out of the testing platform.

Assessment Review

Make sure to review before submitting.

Pause Session

Submit Session

Alternatively, you can suggest that the student pause the test by clicking on the Username dropdown on their test screen and selecting the Pause option as shown here:

For any questions or concerns, please contact SCHIllinoisTeam@pearson.com.

Reporting

15. Now that you have the **Class Assignment** created, navigate to **My Classes** on the side bar.

16. Select your class to enter in on the **District Tests** tab of the Class Report page. Select the **Class Assignments** tab to see all your previously created tests.

The screenshot shows the 'Science 5 Class 1' report page. At the top, it displays '11 STUDENTS' and '3 ADMINISTRATIONS'. Below this, the 'District Tests' tab is active, and the 'Class Assignments' sub-tab is highlighted with a red box. A search bar and a 'Filter Administrations' button are visible. The main content area is titled 'Students by Score / Level' and shows a table with student names and their test status. The table has two columns: 'Student' and 'Mr. Bridgestock's 8th Grade Test Administration'.

Student	Mr. Bridgestock's 8th Grade Test Administration
Class Average	No Results
Bifield, Avivah	In Progress
Blonfield, Travus	In Progress
Janovsky, Farlie	Score Test
Maddern, Judd	Not Started
McGloughlin, Yevette	Not Started

17. Select your recently created test administration. Here you will find three tabs. Performance Summary, Student Responses (including distribution of responses), and Item Analysis.

Click on Student Performance and select IL QuISBE Science Practice 25-26.

The screenshot shows the 'Student Performance' page. On the left, a sidebar menu has 'Student Performance' highlighted with a red box. The main content area shows a 'Program:' dropdown menu with 'IL QuISBE Science Practice 25-26' selected and highlighted with a red box. Below the dropdown, the date range 'Aug 6, 2025 - Jun 5, 2026' is displayed.

Then click on the test

Then click on Item Analysis > Roster. You can see all student responses.

18. On the **Performance Summary** tab you will find:

- Refresh button for live updates
- Test Progress
- Average Score
- Test Progress
 - Not Assigned (student wasn't selected for this test)
 - Not Started
 - In Progress
 - Submitted (test has been submitted and CR item(s) scored)
 - Submitted: Score Pending (select refresh at top right)
 - Score Test (test has CR item(s) to be scored)

Item 30

Students are studying how mammal populations change when pythons become part of their habitat. Pythons eat many types of mammals. Figure 1 shows mammal and python populations changing over time.

Figure 1. Animal Population Data

Year	Deer	Opossums	Pythons
1998-2002	250	500	50
2003-2007	180	250	400
2007-2011	100	100	650

Using the information, how have the mammal populations changed over time? How has the python population changed over time? What **most likely** caused the mammal populations to change?
