### Student Registration for the Writing Administration

- Students will be registered for the Interim Writing assessment based on their current Summative student registration including any summative accommodations.
- Pearson will import students from the Summative administration into the Writing administration on 4/18/2022.
- Users can locate students in the Writing administration by going to Setup>Students. If students are not showing in the center of the screen, you may need to use the search drop-down and check the box for “Show all results”.

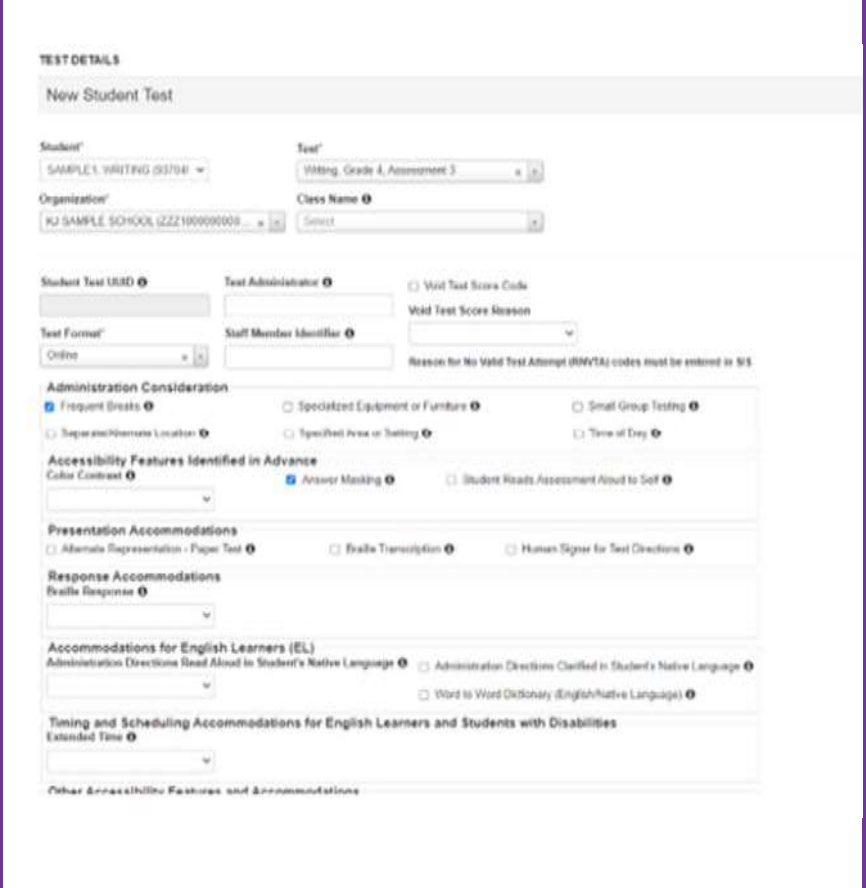

### Student Accommodations

- Starting on 4/19/2022 schools can begin checking student information.
- Accommodations as currently listed in the Summative administration will be imported to Interim Writing as applicable. Schools will need to check student accommodations to ensure they are accurate for the Interim Writing administration.

**Important:** If a student begins a test with the incorrect accommodation that test will need to be marked complete and the student will **NOT** be able to retest the Writing Interim assessment.

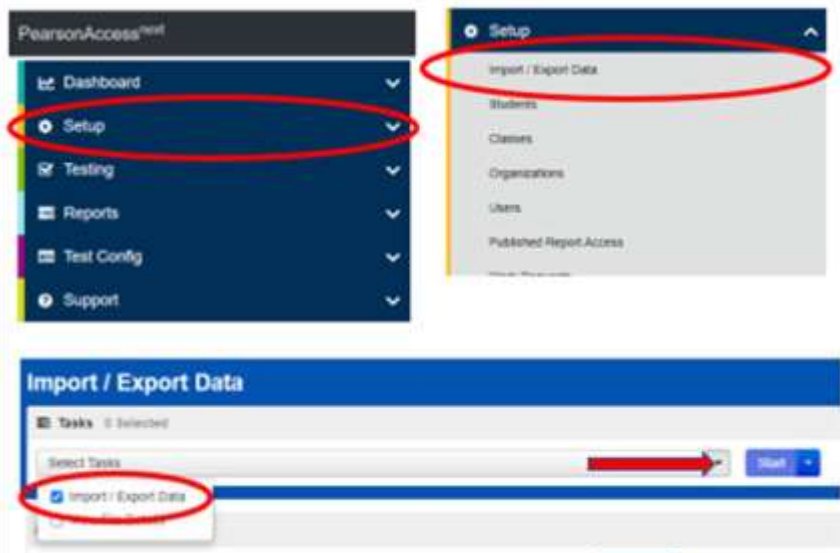

- Accommodations can be checked/ updated manually using the Manage Student Tests

task (as shown on the right) or via the Import/Export feature.

### Student Accommodations (continued)

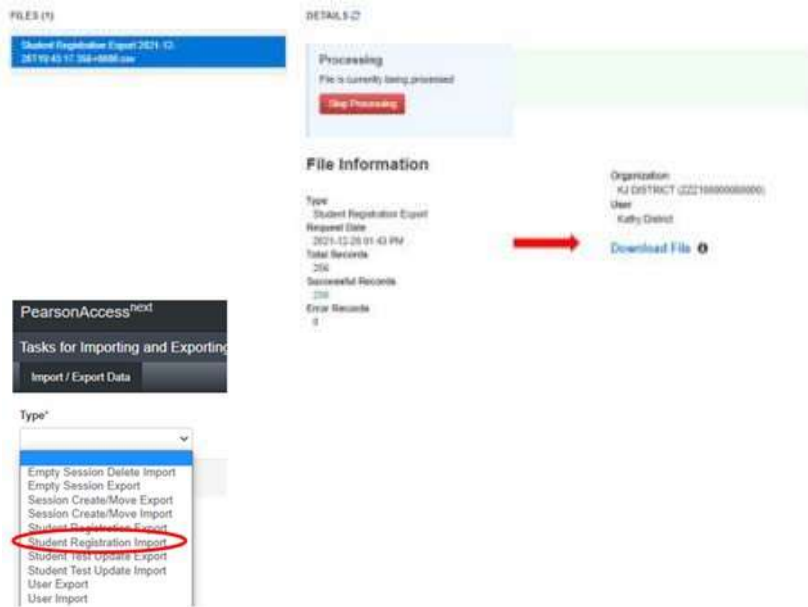

- Accommodations can be updated via a Student Registration Import.
- Users should first do a Student Registration Export and use that file to make any needed updates. Then, you may do a Student Registration Import.
- To export the file, In PearsonAccess<sup>next</sup>, click the Setup drop-down then click on “Import/Export Data”
- On the Import/Export Data screen, use the Select Tasks drop-down and select “Import/Export Data” then select the blue start button.

- On the next screen, under the “Type” drop-down, select Student Registration Export.
- The default information can be left as shown, then select Process.

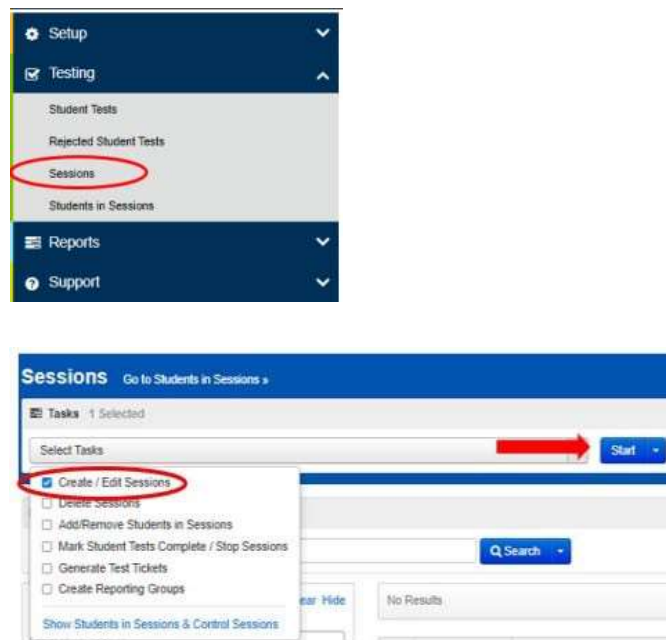

- When the file is complete, choose Download File.
- This file can be used to both update any accommodations and create sessions and classes (see section on Create Sessions).
- Once information is updated in the file, save as a .csv (the organization fields may need formatted before saving) then use the same process but choose Student Registration Import; select your file and hit process.

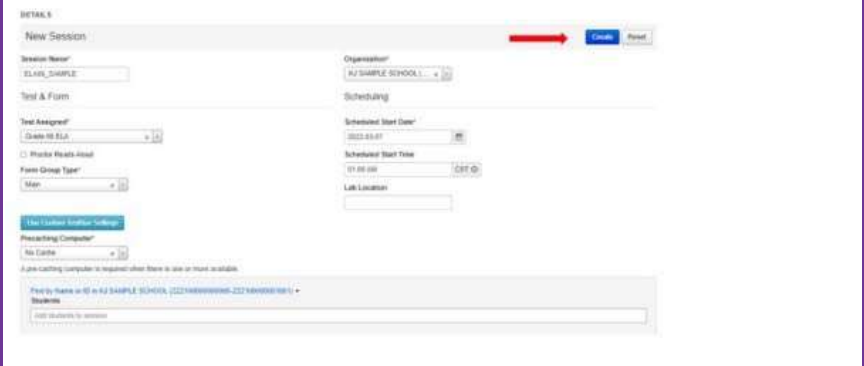

### Session Management

- For students to test the Writing assessment, they must be assigned a test and added to a testing session.
- Students registered on 4/18/2022 from Summative will automatically be assigned a test.
- Sessions can be created manually within PearsonAccess<sup>next</sup> or via a Student Registration import.
- To create sessions manually, use the Testing drop-down and choose Sessions.
- On the Session screen, go to the Select Tasks drop-down and choose "Create/Edit Sessions" then select Start.

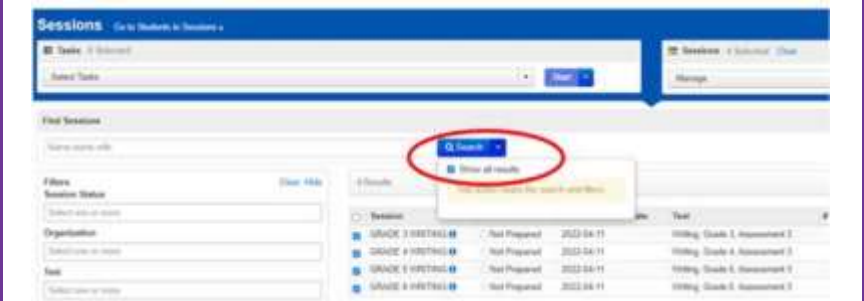

- Complete the required information and select create.
- Scheduled start date is required but does not have to match the actual testing start date.
- Students can be added on this screen while creating the session or added later under Select Tasks.

- To create sessions and add students via the Student Registration Import, start with the file export as described under student accommodations on page 3.
- Add Session and Class names to the file in columns AS and AT.
- Save the file as a csv and use the Student Registration Import.
- Sessions will appear under Testing>Sessions. You may need to use the Search drop-down to select "Show all results"

## Reporting

- There are two Interim Writing reports.
  - 1) The Student Writing Assessment Report
  - 2) The Student Writing Response Report.
- **The Student Writing Assessment Report** is found under Reporting>OnDemand Reports. These reports will populate as scoring completes for the student record.
- OnDemand Reports can be accessed under Reports>OnDemand Reports.

- Writing scores will show in the center of the OnDemand screen.
- The Print drop-down on the right side of the screen can be used to print student list reports as a PDF, .csv or Excel file.
