IAR and ISA District and School Summative File Field Definitions

Illinois Assessment of Readiness and Illinois Science Assessment

If assistance is needed, contact the Customer Support Center at **1-866-317-6034** or visit https://il.mypearsonsupport.com/support/.

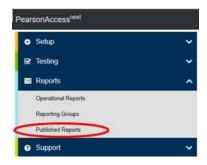

Introduction

The purpose of the Summative file is to provide a data file to districts and schools that includes all students who were registered for the Illinois Assessment of Readiness (IAR) and/or Illinois Science Assessment (ISA) and assigned a test. All students assigned a test will be included on the data file. If the student tested, met attemptedness and did not have their score voided, their overall scale score and performance level scores will be on the file.

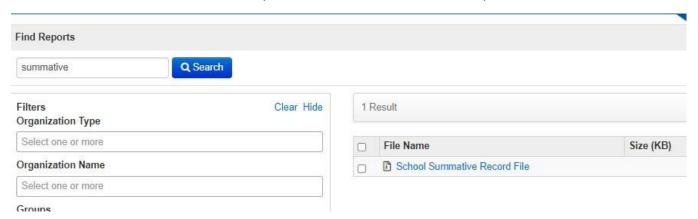

Accessing the Summative File

Users with the following roles have access to **Published Reports**: District Test Coordinator (DTC), School Test Coordinator (STC) or other roles that also have the Report Access add-on role.

Once logged into PearsonAccess^{next}, go to Reports>Published Reports

When Summative files are available, they will be listed under Published Reports in the middle of the screen.

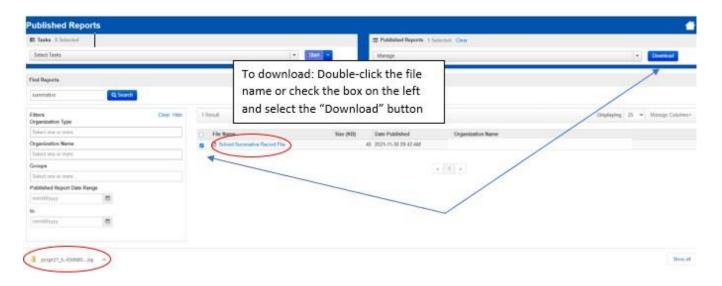

Downloading the Summative File

The Summative Record file is a zipped csv file. It can be downloaded by double-clicking on the file name or checking the box to the left of the file name then selecting the blue "Download" button in the upper right of the screen.
