

Parent Portal and Video Individual Score Reports Illinois Science Assessment

Dear Parent or Guardian:

(Insert School/District Name) is pleased to inform you of a new and innovative method for presenting your student Illinois Science Assessment of Readiness (ISA) test results.

- **IL Parent Portal** – We are introducing the [Illinois Parent Portal](#), where you can access individual student results and resources to support everything you need to know about your child's performance on the Illinois Science Assessment
- **Video Individual Score Reports (Video ISRs)** – Video Individual Student Reports (ISRs) are personalized videos created specifically for your student that walk you through the information presented on their student's score report. Video ISRs, which are delivered via the IL Parent Portal, combine student-specific animation and voiceovers to help you better understand your student's assessment results and direct you to resources that are tailored for your student's needs. We encourage you to watch these videos with your child and discuss any questions with your student's teacher.

You will receive a paper copy of the ISR. However, an individual claim code unique to your student is a new feature that is included this year. This code will allow you to securely access your student's test results in the IL Parent Portal.

The IL Parent Portal and video ISRs will be available in late September.

We are excited about the opportunity to strengthen our efforts with you to effectively communicate your student's performance on the Illinois Science Assessment.

Sincerely,

(Chief School Administrator or School Principal's Name)
