

Running Operational Reports

This document provides guidance for running operational reports in PearsonAccess^{next}. The following table on pages 1-4 lists the report categories, all available reports, and a description of each report. Pages 5-8 are step-by-step directions for running operational reports. Report parameters are dependent on user role.

Category	Report	Purpose
Organizations	Organization Status	<ul style="list-style-type: none"> This report provides a list of organizations and their statuses. You can narrow results by looking for specific statuses or organization types. State and/or district users can see which schools are participating in the administration, and if the participation and enrollment has been completed. The report can also show if there have been participation or enrollment changes and the user and time when the change was made. This report can be filtered by enrollment complete (No/Yes), inactive/closed (No/Yes), organization type (State, System/District, School/Institution, Non-School/Institution), participating (No/Yes), and/or participation complete (No/Yes). All filters to no filters may be applied.
	Organization Counts	<ul style="list-style-type: none"> This report displays the number of organizations loaded into PearsonAccess^{next} by type (state/district/school), including the number participating and not participating. The report does not list the names of organizations. This report provides the state and/or district with the overall count of schools participating in an administration.
	Enrollment Count Status – Participation Status	<ul style="list-style-type: none"> This report lists organization status for Enrollment Counts Completion Status, Participation Completion Status, when the status was changed to Complete and who changed the status to Complete. To update the report with new input information select Request Report Refresh. A report parameters box will appear and can be filtered with contact type (mailing/shipping) and/or organization type (State, System/District, School/Institution, Non-School/Institution). All filters to no filters may be applied.
	Enrollment Counts	<ul style="list-style-type: none"> This report displays PARCC specific organization details and enroll counts – entered and derived. (Organization must be participating in the administration.) This report will provide the school, district, or state with a breakdown of what tests the school is administering and the enrollment/registered counts for those tests. The enrollment counts will include the registered vs. enrollment amount for each category: regular, large print, braille, and read aloud. The registered amount is the number of students the school has assigned to the test session and the enrollment is how many tests the school is requesting. Clicking the Request Report Refresh link will allow the refresh report button to become available. An organization type (State, System/District, School/Institution, Non-School/Institution) must be selected to refresh the report.

Students & Registrations	Student Counts	<ul style="list-style-type: none"> • This report provides a count of students enrolled and students registered for each organization. • This report can be filtered by organization type (State, System/District, School/Institution, Non-School/Institution).
	Student Org Enrollment Report	<ul style="list-style-type: none"> • This report shows the date of enrollment with the student’s name, student code, date of birth, and gender details in a list. Users can select by date range or by monthly increments. • This report shows students that are created and registered in PearsonAccess^{next}. • This report can be filtered by within (last 30, 45, 60, 90, or 365 days), interval begin (YYYY-MM-DD), and/or interval end (YYYY-MM-DD).
	Students where Responsible District/School is different from Testing District/School	<ul style="list-style-type: none"> • This report is for the testing organization. • This report lists all of the students where the values in the Responsible District/School field do not match the values for the Testing District/School code within the system.
	(Responsible Organization) Students where Responsible District/School is different from Testing District/School	<ul style="list-style-type: none"> • This report is for the responsible/accountable organization. • This report lists all of the students where the values in the Responsible District/School field do not match the values for the Testing District/School code within the system.

Students & Registrations	Students Enrolled but not Registered for Test Administration	<ul style="list-style-type: none"> This report lists all of the students who are enrolled for a test administration but are not registered.
	Student Registrations Report	<ul style="list-style-type: none"> This report provides a list containing student’s name, student code, date of birth, and gender details.
	Student Registration Summary	<ul style="list-style-type: none"> This report shows student registrations by test—including the count of students being tested vs assigned to test vs completed test. This is broken out by organization and the type of test (i.e. Grade 7 ELA vs. Grade 6 Math, etc.). If no report is available select the Request Report Refresh link and click the Refresh Report button.
	Students Registered but not Assigned to a Test	<ul style="list-style-type: none"> List of all students that are registered for a test administration but do not have any student tests assigned to them.
	Student Test Counts	<ul style="list-style-type: none"> This report provides a count of “tests assigned” vs “completed” for paper tests and the count of “tests assigned” vs. “in progress” vs. “completed” for online tests. This is broken out by test type (Grade 7 ELA vs. Grade 6 Math, etc.). This report can be filtered by organization type (State, System/District, School/Institution, or Non-School/Institution) and/or test (i.e. Grade 3 ELA, Grade 4 Math, etc.).
	PNP Report - Accessibility Features and Accommodations for Student Tests	<ul style="list-style-type: none"> This report lists all of the students and tests with identified Accessibility Features and Accommodations.
	Students with Disability with No Accommodation	<ul style="list-style-type: none"> This report lists the Students with Disability field populated with IEP, 504, or both and do not have an accommodation selected.
	Students with Online Test but not assigned to Session	<ul style="list-style-type: none"> This report lists all of the students who are assigned to take a test in the Online format but have not yet been added to a testing session for the administration of that online test.
	Students with Multiple Tests of Same Subject Area	<ul style="list-style-type: none"> This report lists students who have more than one test of a specific subject area.
	Students with Multiple Tests	<ul style="list-style-type: none"> This report displays a list of students that are assigned to more than one test of a particular type. This report must be filtered by test (i.e. Grade 3 ELA, Grade 4 Math, etc.) and can be filtered by test status (Assignment, In Progress, or Completed) and/or type (Paper, Online, or Alternate).

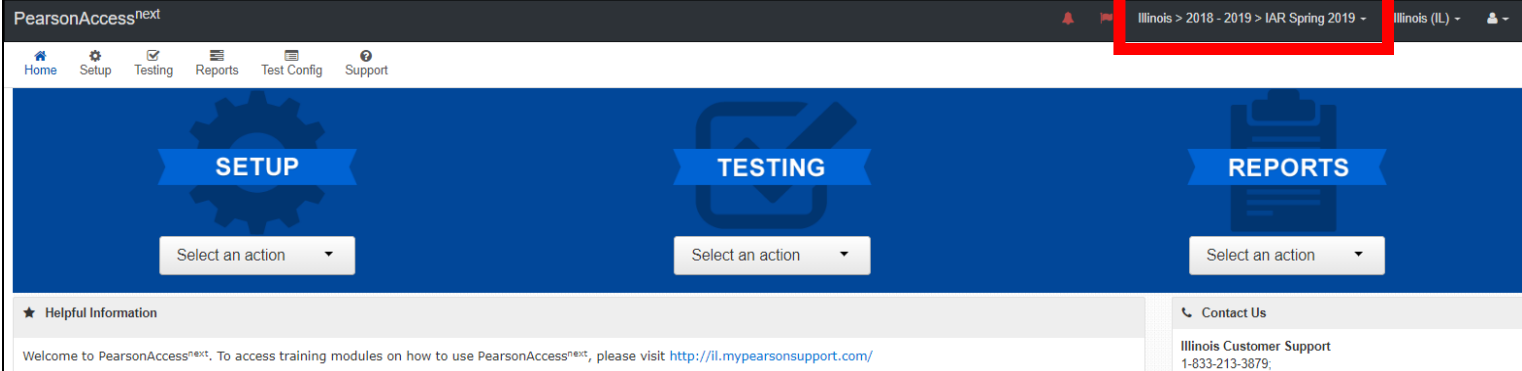

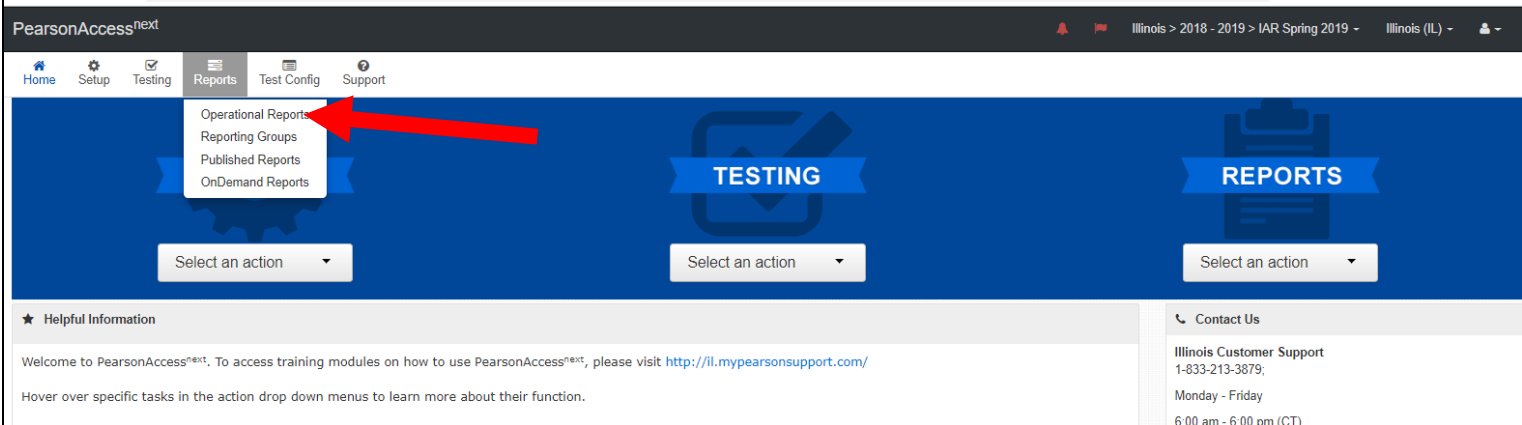

Students & Registrations	Students with Warnings	<ul style="list-style-type: none"> • This report displays a list of all students with one or more warnings—including the student name, student code, field, and warning. • User can choose to filter by leaving the “warning type” field blank or selecting a warning type (Missing Economic Disadvantage, Missing English Language Learner – ELL, Missing Ethnicity, Missing Gifted and Talented, Missing Limited English Proficiency – ELP, Missing Migrant Status, Missing Race, Primary Disadvantage Type Cross Validation, Student with Disabilities Cross Validation, Registration Grade for Test, or Test for Registration Grade).
	Rejected Student Test List	<ul style="list-style-type: none"> • This report displays a list of all rejected student tests. • User can choose to filter by leaving the Filtered Organization field blank or selecting an organization. • User can choose to filter by Status (Demographic Mismatch, Enrollment Not Found, Failed Validations, Multiple Students Found, Organization Mismatch, Organization Not Found, Student Not Found, Student Test Not found, or Test Not Found).
	Student Tests that have been Assigned but have not yet Completed	<ul style="list-style-type: none"> • This report lists students who are registered for a test administration and have a test assigned to them but the test has not yet been completed.
	Do Not Report Tests (voided tests)	<ul style="list-style-type: none"> • This report displays a list of completed student tests which are set to Do Not Report/Void. Do Not Report/Void Reason is included. • User can filter by test (Grade and Subject specific). • User can select to Exclude Unsubmitted Tests.
	Irregularity Summary	<ul style="list-style-type: none"> • This report displays a list of irregularity reason counts by organization and test. User must select organization prior to selecting Operational Reports.
	Irregularity Detail	<ul style="list-style-type: none"> • This report displays a list of irregularities for student tests. User must select organization prior to selecting Operational Reports.

Online Testing	Session List	<ul style="list-style-type: none"> This report provides the session names, test associated with that session, and the number of students registered to that session. Select Request Report Refresh link to see the report parameters.
	Session Counts	<ul style="list-style-type: none"> This report identifies the online sessions broken out by total, not started, started, and stopped. It can help determine an overall count of sessions which have started and stopped.
	Organizations that have Precaching Server Configuration	<ul style="list-style-type: none"> This report provides a list of all organizations that have a Precaching Server Configuration.
	Sessions with Delivery Schedule Override	<ul style="list-style-type: none"> This report shows which sessions in a state had the “Ignore Testing Schedule” checkbox selected on the students in sessions page. This box is used when schools need to test outside of the state testing window for weather, tech issues, etc.
	Session Roster	<ul style="list-style-type: none"> This report provides a list of students in a specific session. Click the Request Report Refresh link to see the report parameters to select filters. This report can be filtered by session organization (schools will be listed) and test (Grade 3 ELA, Grade 5 Math, etc.).
	Students Currently Testing Online	<ul style="list-style-type: none"> This report provides a list of students currently testing online.
	Online Students Tests Marked Complete	<ul style="list-style-type: none"> This report provides a list of all online student tests that have been Marked Test Complete. This will also include the Mark Test Complete Reason.
	Student Test Units that are Ready and Unlocked - Strict Battery	<ul style="list-style-type: none"> This report provides a list showing all Student Tests that are in a Ready state that has one or more units in an unlocked status. Users can filter by Session Organization and Test (Grade and Subject specific).
	Student Tests that are Ready and Unlocked	<ul style="list-style-type: none"> This report provides a list showing all Student Tests that are in a Ready state with an unlocked status. Users can filter by Session Organization and Test (Grade and Subject specific).

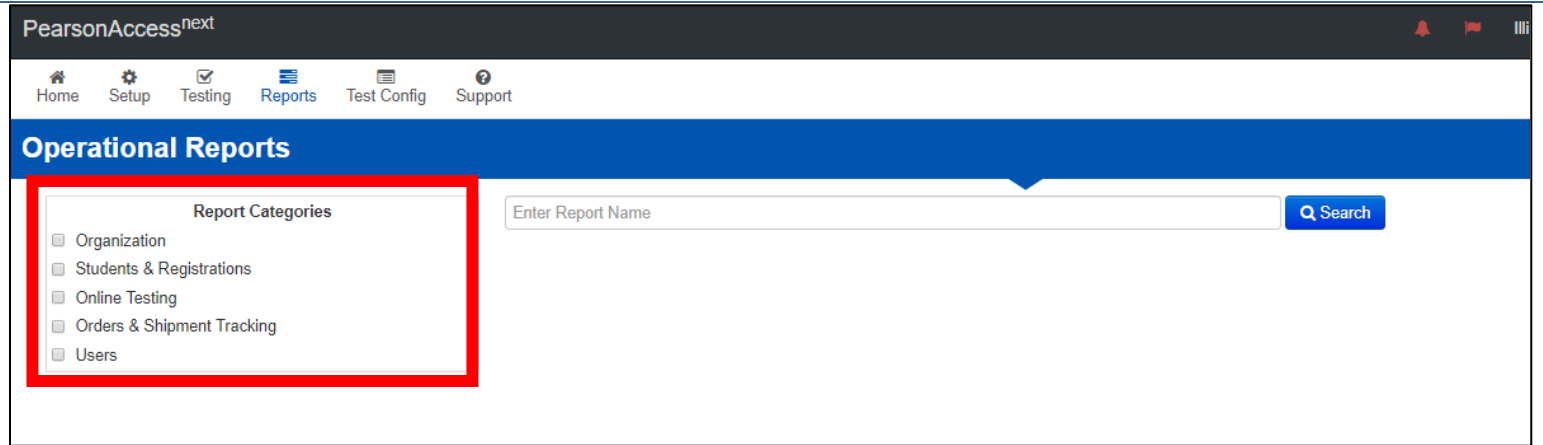

Orders & Shipment Tracking	Overdue Shipments	<ul style="list-style-type: none"> • This report provides a list of shipments that have not yet arrived and are past expected delivery date. • Users can choose to Include all child orgs. • Users can filter by organization.
	Material Summary	<ul style="list-style-type: none"> • This report will display the orders summary. • This report must be filtered by type of order (all, additional, or initial) then by organization (state, district, or school name will populate).
	Material Detail	<ul style="list-style-type: none"> • This report provides the items and quantities ordered for the organization or organizations. Results can be requested for all orders, additional orders, or initial orders.
	Packing List	<ul style="list-style-type: none"> • This report provides a copy of the packing list that is shipped with test materials. • This report is displayed by inputting an order ID.
	Shipment Problem	<ul style="list-style-type: none"> • This report will display the shipping problems for the specified district or school. • This report must be filtered by organization (state, district, or school name will populate), then by shipment problem type (shipment problems not yet resolved or shipment problems resolved).
	Security Checklist	<ul style="list-style-type: none"> • This report provides a copy of the Security Checklist that is used to track secure testing materials. This report shows the range of serial numbers for each material type provided to the organization. • This report can be filtered by organization (state, district, or school name will populate).
	Security Checklist - Full	<ul style="list-style-type: none"> • This report provides a copy of the Security Checklist that is used to track secure testing materials. This report shows every serial number for every item provided to the organization. • This report can be filtered by organization (state, district, or school name will populate).
	Inbound Shipments	<ul style="list-style-type: none"> • This report provides a list of orders marked as inbound shipments.
Users	Users with Org Access	<ul style="list-style-type: none"> • This report shows all users that with access to the selected organization.
	Users with Role Access	<ul style="list-style-type: none"> • This report shows all users that have the selected role.

Running Reports in PearsonAccess^{next}

There are two types of reports: **Organizational Reports** and **Published Reports**. Use the following steps to access the organizational reports. Your user role will define what reports are available.

Step	Screen Shot
<p>Log into PearsonAccess^{next}.</p> <p>Select IAR Spring 2019 from the drop down menu at the top of the screen</p>	 <p>The screenshot shows the PearsonAccess^{next} dashboard. At the top right, a dropdown menu is open, showing 'Illinois > 2018 - 2019 > IAR Spring 2019' selected. Below the navigation bar are three main sections: SETUP, TESTING, and REPORTS, each with a 'Select an action' dropdown. A 'Helpful Information' section at the bottom left contains a welcome message and a link to training modules. A 'Contact Us' section at the bottom right provides customer support information.</p>
<p>Select Operational under the Reports menu.</p>	 <p>The screenshot shows the PearsonAccess^{next} dashboard with the 'Reports' menu open. A red arrow points to the 'Operational Reports' option in the dropdown menu. The other options in the menu are 'Reporting Groups', 'Published Reports', and 'OnDemand Reports'. The rest of the dashboard layout is consistent with the previous screenshot.</p>

Run the report:

Request Report Refresh

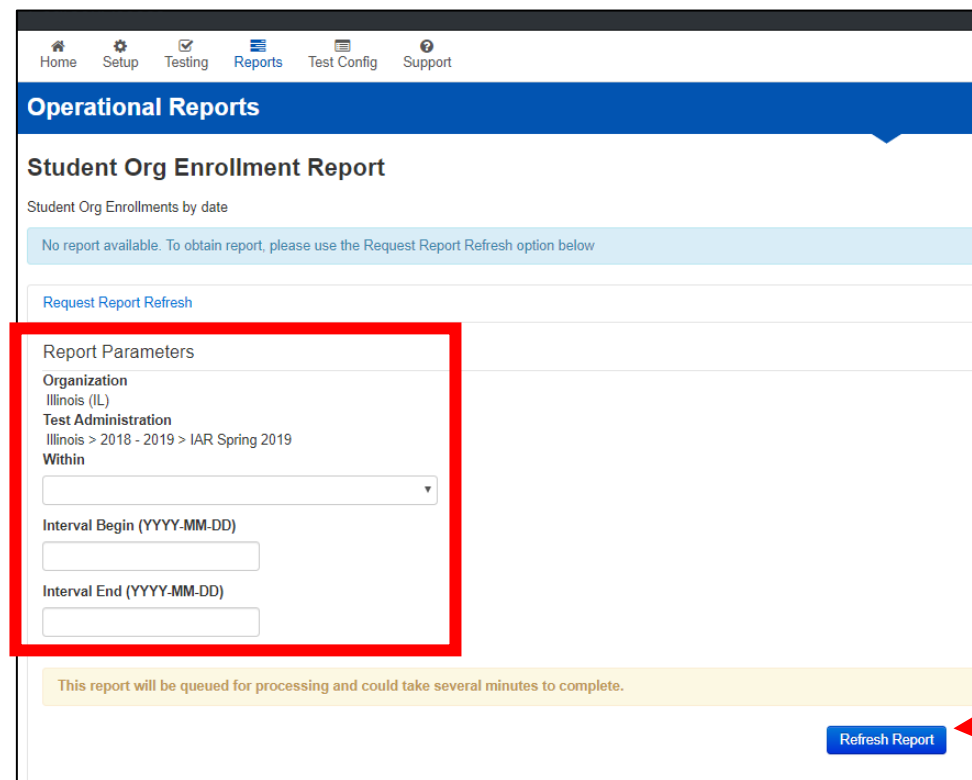

This option refreshes content and recreates a new report to download.

1. Click the Request Report Refresh link. This will open the Report Parameters. Some reports will have drop-downs to complete.

2. Click the Refresh Report button.

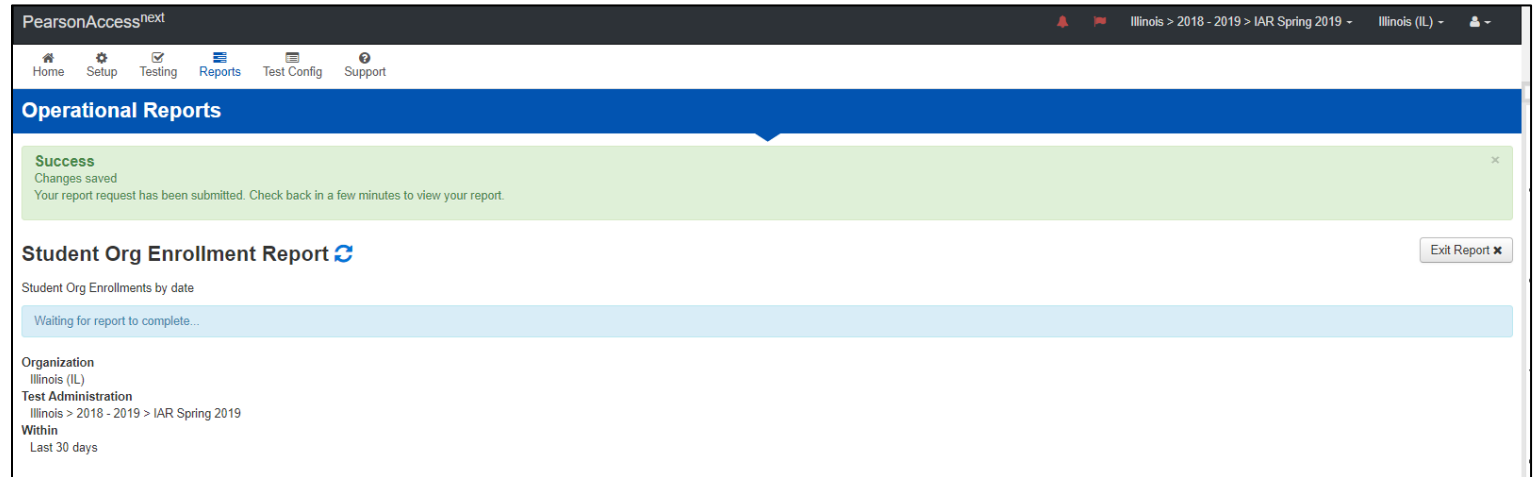

The screenshot shows the PearsonAccessnext interface. At the top, there is a navigation bar with 'Home', 'Setup', 'Testing', 'Reports', 'Test Config', and 'Support'. Below this is a blue header for 'Operational Reports'. The main content area is titled 'Student Org Enrollment Report' and includes a sub-header 'Student Org Enrollments by date'. A light blue message box states: 'No report available. To obtain report, please use the Request Report Refresh option below'. Below the message is a blue link labeled 'Request Report Refresh', which is pointed to by a red arrow.

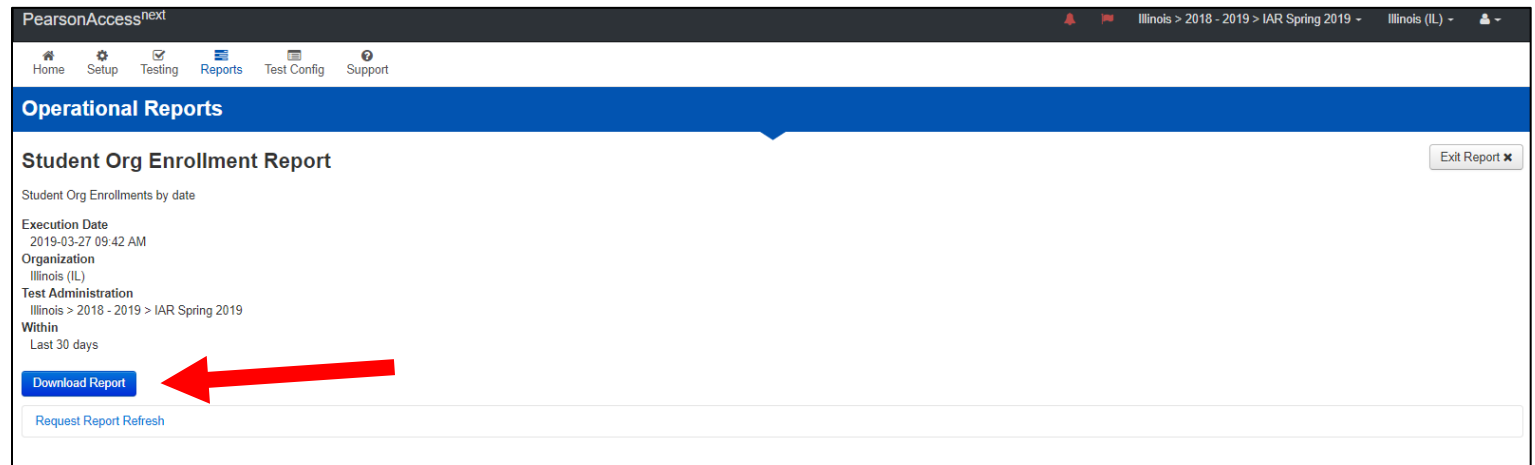

The screenshot shows the 'Report Parameters' form. The form is titled 'Report Parameters' and contains the following fields: 'Organization' (Illinois (IL)), 'Test Administration' (Illinois > 2018 - 2019 > IAR Spring 2019), 'Within' (a dropdown menu), 'Interval Begin (YYYY-MM-DD)' (a text input field), and 'Interval End (YYYY-MM-DD)' (a text input field). A red box highlights the entire form area. Below the form is a yellow message box: 'This report will be queued for processing and could take several minutes to complete.' At the bottom right of the page is a blue button labeled 'Refresh Report', which is pointed to by a red arrow.

3. PearsonAccess^{next} will display a success screen.

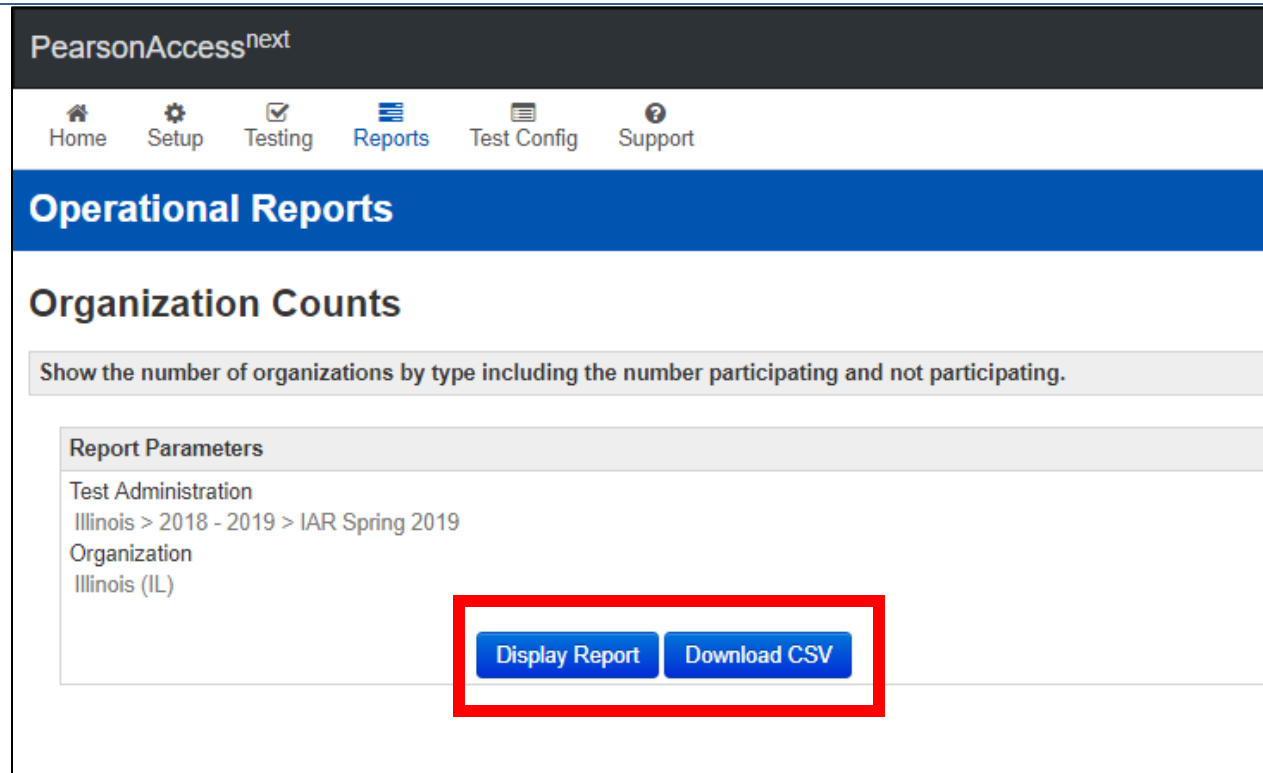

4. Click the Download Report button to download a .csv file.

5. Users may also click the Request Report Refresh button to create a file with updated information or new Report Parameters.

Some reports offer the option to display or download:

- **Display Report** – Click the Display Report button. This will immediately display the information on the screen.
- **Download CSV** – Click the Download CSV button. This will download the report and allow you to open and save the report via a .csv file.

The screenshot shows the PearsonAccess^{next} interface. At the top, there is a navigation bar with icons for Home, Setup, Testing, Reports (highlighted in blue), Test Config, and Support. Below this is a blue header for "Operational Reports". The main content area is titled "Organization Counts" and includes a sub-header: "Show the number of organizations by type including the number participating and not participating." Underneath, there is a "Report Parameters" section with the following text: "Test Administration", "Illinois > 2018 - 2019 > IAR Spring 2019", "Organization", and "Illinois (IL)". At the bottom of this section, two blue buttons are visible: "Display Report" and "Download CSV". These two buttons are enclosed in a red rectangular box.
