

Personal Needs Profile Guidance

Managing Incorrect Accessibility Features and Accommodation PNP

Personal Needs Profile Process

The purpose of this document is to provide guidance for managing and updating Personal Needs Profile data in PearsonAccess^{next} after the registration process has been completed. This guidance assists in correcting PNP data after test registration and a student is identified as not having the appropriate accessibility features or accommodations indicated.

IMPORTANT

Once a test session has been prepared, a form is assigned to each student in the test session. PearsonAccess^{next} will not allow users to update PNP information for **form supported** accommodations within a prepared or started test session until the student is removed from the test session. **Removing a student from a prepared or started test will reset their form assignment (if the student has not started the test).** You can put the student back into the original session, if appropriate; you do not need to prepare or start the session an additional time. Users should follow the directions below for *Updating PNP Data Before Student Begins Testing*. **If the test has been started, do NOT void by unit—follow the directions under *Updating PNP Data After Student Begins Testing*.**

All student accommodations are entered in PearsonAccess^{next}. There are no accommodations entered in ISBE's Student Information System (SIS).

Form Supported Accommodations:

- ASL Video
 - Assistive Technology – Screen Reader
 - Assistive Technology – Non-Screen Reader
 - Closed Captioning for ELA/L
 - Text-to-Speech
 - Translation of the Mathematics Assessment
 - Human Reader or Human Signer*
- *Human Reader and Human Signer tests are session supported.

To ensure students have the correct accessibility features and accommodations before test administration begins, the process below should be followed:

1. Students are registered for testing and Personal Needs Profile populated using the Student Registration/Personal Needs Import (SR/PNP) or User Interface. The *PNP Report - Accessibility Features and Accommodations for Student Tests* operational report is run and reviewed by Test Coordinators

and Test Administrators to make sure students are identified correctly with the appropriate accessibility features and accommodations.

2. Test session setup is confirmed and students are added to test sessions.
3. Verify test assignment (for form supported accommodations and accessibility features) using the indicators (e.g., accommodation is listed on the following page).

Accommodation	Indicator	Form Code
American Sign Language	ASL	SPAE
Assistive Technology – Screen Reader	SR	SPRE
Assistive Technology – Non-Screen Reader	Non-SR	SPNE
Closed Captioning	CC	SPCE
Text-to-Speech	TTS	SPTE
Spanish Text-to-Speech	STTS	SPTS
Spanish	S	SPOS
Human Reader (English)	None	SPHE
Human Reader (Spanish)	None	SPHS

4. Test Coordinators prepare test sessions. Once test sessions have been prepared the form code will appear. This can be used to ensure the correct accommodation is assigned. Form codes are a 14-character alpha numeric sequence that are specific to the test administration and test being taken. The form code for each accommodation is listed on the following page. For example, the code 18EL03SFAE0101 indicates:

- 18 = Year
- EL = Subject (this one is ELA/L)
- 03 = Grade
- SF = Administration (this one is spring/fall)
- A = Accommodation (this one is ASL, non-accommodated forms have an O)
- E = Language (this one is English)
- 0101 = Battery Identifier

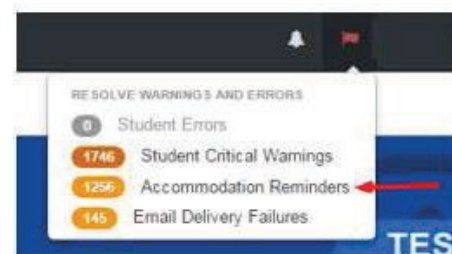

In the event that inaccurate PNP information has been loaded or that no information has been loaded, this document provides guidance for updating the PNP before and after testing has been started. For the purposes of this document, the term “void” refers to invalidating a student’s score in one content area (e.g., ELA/L, Mathematics), so that the student’s test in one content area is not scored or used for reporting purposes.

Important

Some accommodations require a student to have an IEP or 504 Plan. This data is captured in the Student with Disabilities Field and can only be updated by users with permission to edit this field. The following accommodations require the Student With Disabilities Field is populated. A validation error will occur if one of these accommodations is selected and the Student With Disabilities Field is not populated.

In addition, a smaller set of accommodations will set a reminder in PearsonAccess^{next}, pictured to the right. The Accommodations Reminders are not warnings that can be resolved, but are intended to ensure that IEP or 504 plans are valid and require the accommodation. The reminders will remain active as long as the accommodation remains indicated on a student’s test registration. Accommodations that are set to verify the IEP or 504 designations are:

- Text-to-Speech – for ELA tests only
- Calculation Device and Mathematics Tools
- ELA Constructed Responses – Human scribe value only
- Human Reader/Signer – for ELA tests only
- ASL Video for ELA tests only

Accommodation	Notes
ASL Video	For computer-based ELA/L and math tests
Assistive Technology – Screen Reader	For computer-based ELA/L and math tests
Assistive Technology – Non-Screen Reader	For computer-based ELA/L and math tests
Closed Captioning for ELA/L	For computer-based ELA/L tests
Refreshable Braille Display for ELA/L	For computer-based ELA/L tests
Alternate Representation - Paper Test	For paper-based ELA/L and math tests
Large Print	For paper-based ELA/L and math tests
Braille with Tactile Graphics	For paper-based ELA/L and math Tests
Student Reads Assessment Aloud to Themselves	For computer- and paper-based ELA/L and math tests
Human Signer for Test Directions	For computer- and paper-based ELA/L and math tests
Answers Recorded in Test Book	For paper-based ELA/L and math tests
Braille Response	For computer- and paper-based ELA/L and math tests
Calculation Device and Mathematics Tools	For computer- and paper-based math tests

ELA/L Constructed Response	For computer- and paper-based ELA/L tests
ELA/L Selected Response or Technology Enhanced Items	For computer- and paper-based ELA/L tests
Mathematics Response	For computer- and paper-based math tests
Accommodation	Notes
Monitor Test Response	For computer- and paper-based ELA/L and math tests
Word Prediction	For computer- and paper-based ELA/L tests
Text-to-Speech	The Students With Disability Field must be populated with either “504” OR “IEP” for computer-based ELA/L. The Students With Disability Field does not need to be populated for computer-based math tests.
Human Reader or Human Signer	The Students With Disability Field must be populated with either “504” OR “IEP” for computer- or paper-based ELA/L. The Students With Disability Field does not need to be populated for computer-based or paper-based math tests.
Unique Accommodation	For computer- and paper-based ELA/L and math tests

Translation of the Mathematics Assessment is available with Text-to-Speech enabled. To select this option in the PearsonAccess^{next} user interface, populate the Translation of the Mathematics Assessment in Text-To-Speech – Spanish field. On the Student Registration/Personal Needs Profile, populate Translation of the Mathematics Assessment field with “SPA” and Text-to-Speech field with “01” (Text Only) or “02” (Text and graphics). Validation rules still apply.

Updating PNP Data Before Student Begins Testing

The purpose of this section is to provide guidance for updating PNP data in PearsonAccess^{next} before a student begins testing, but after the test session has been prepared or started. These steps should be performed if the student has been assigned an incorrect form.

For computer-based testing, once the PNP is updated and the student is placed back into the session, the student will receive the correct test form with the accessibility features or accommodations identified in the PNP. For paper-based testing, the Test Administrator can begin administering the assessment with the appropriate accessibility feature or accommodation.

Steps

Remove Student from Session

Go to Testing > Students in Sessions and add the session for the student to the Session List.

Select the student from the list at the bottom of the screen.

Select Remove Students from Sessions under the Tasks drop down and click Start.

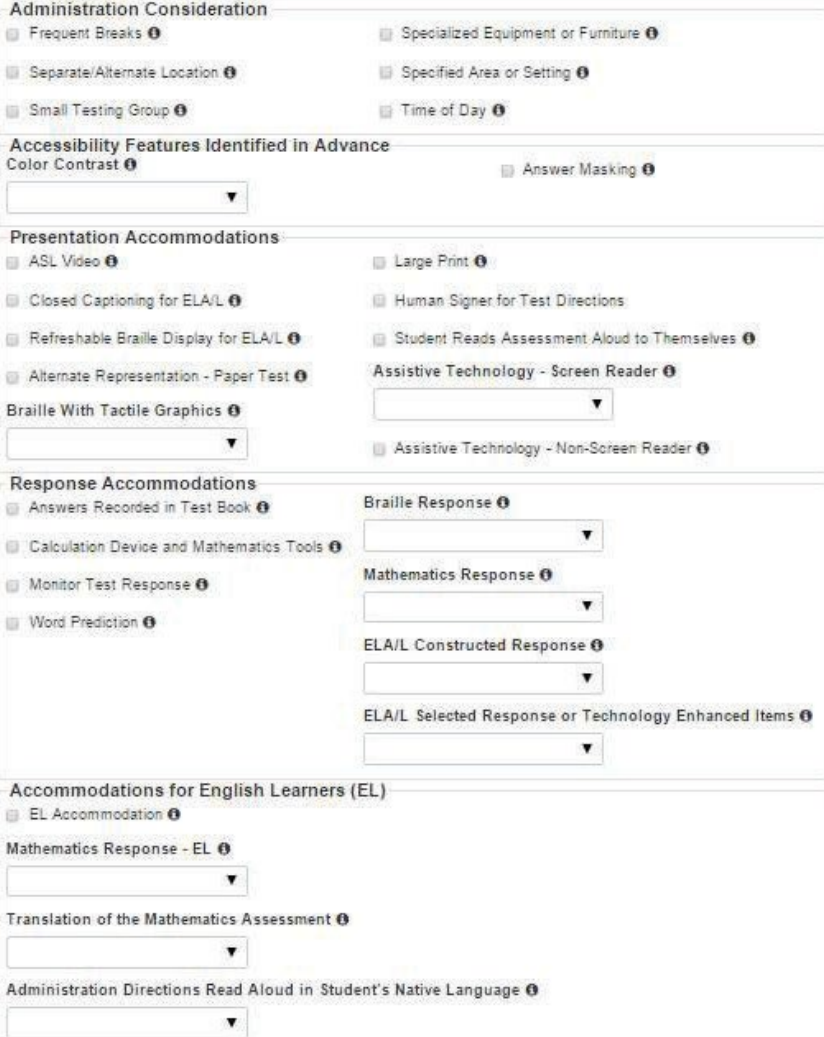

On the Remove Students from Sessions screen, click the check box for the student, then click the Remove button.

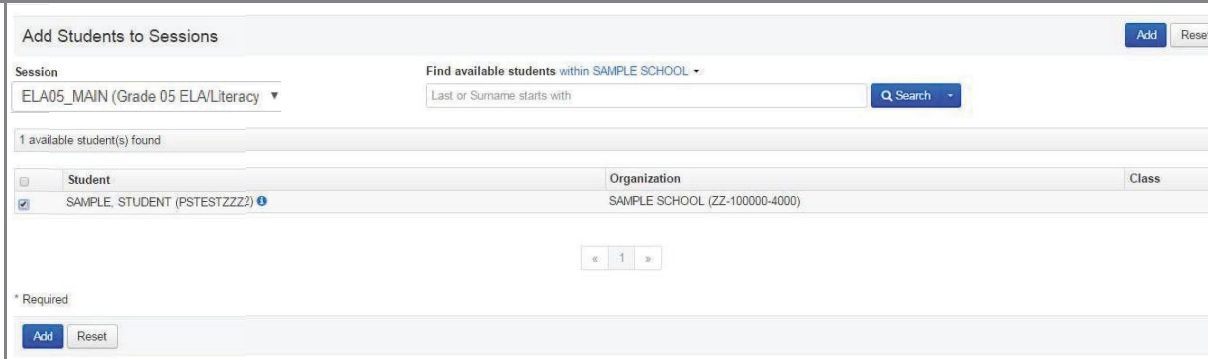

Screen Shot/Directions

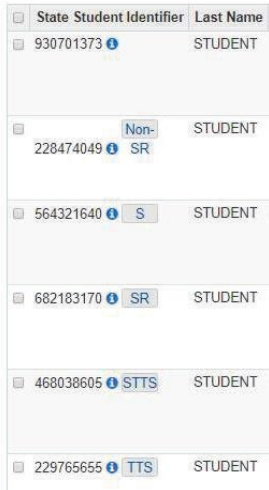

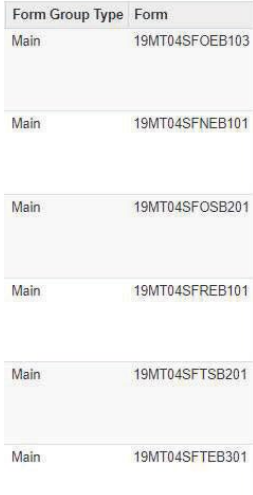

The screenshot displays the 'Students in Sessions' interface. At the top, there are two dropdown menus: 'Tasks' (set to '0 Selected') and 'Students in Sessions' (set to '0 Selected'). The 'Tasks' dropdown is highlighted with a red box, and a red arrow points to the 'Start' button next to it. Below this is a 'Session List' section with a red box around it, containing a 'SAMPLE SESSION' entry. To the right is a 'SAMPLE SESSION' panel with a 'Ready' status and 'Start Session' and 'Refresh' buttons. A search bar is located below the session list. The main table below has a red box around its header and first row. The table columns are: State Student Identifier, Last Name, First Name, Middle Name, Username, Session, Gr5ELA - Unit 1, Gr5ELA - Unit 2, Form Group Type, and Form. The first row contains: 999994270, ELA GR FIVE, MAIN I, 6935616112, ELA05_MAIN (Grade 05 ELA/Literacy), Ready, Ready, Main, Grade 5 ELA/Literacy Practice Test 4. Below the table is a 'Remove Students from Sessions' section with a 'Remove' button and a 'Reset' button. A red arrow points to the 'Remove' button. At the bottom, there is a '* Required' label and another 'Remove' button with a red arrow pointing to it.

Updating PNP Data After Student Begins Testing

The purpose of this section is to provide guidance for updating PNP data in PearsonAccess^{next} after a student begins testing. If the accommodation is supported by a specific form, (e.g., ASL, Closed Captioning, Spanish, Spanish Text-to-Speech, Text-To-Speech, Screen Reader or Assistive Technology Application) the steps in the table below should be followed.

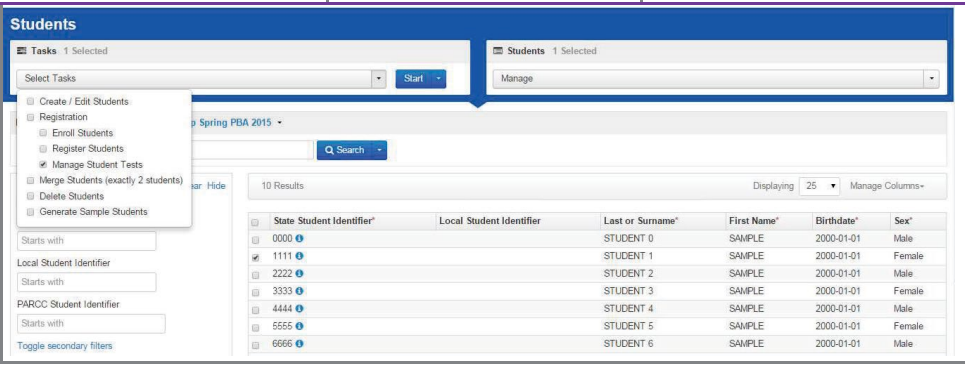

Steps	Screen Shot/Directions										
<p>Exit Test in TestNav</p> <p>The student must click the gray button next their name in the upper right corner of the screen.</p> <p>Click Logout of TestNav.</p> <p>Click Save and Return Later.</p> <p>Submit a form to report a Testing Irregularity or Security Breach</p>											
<p>Mark the Test Complete</p> <p>Go to Testing > Students in Sessions and search for the student in the Find Students search bar or click the drop down to choose Show all results.</p> <p>Check the box for the student.</p> <p>Select Mark Student Tests Complete under the Tasks drop down and click Start.</p> <p>On the Mark Student Tests Complete screen, click the check box for the student and all units.
